Monthly Maintenance

If your website requires continuous updates, ongoing Website Maintenance is available for **starting** at \$100/month.

Important Note

If you are opting for a 1-page website, do not attempt to fill one page with all of your info in hopes of getting a complete website into one-page to save money. This does not offer a good user experience and will not produce a quality website. One-page sites are for start-ups or small-scale businesses that don't have or require enough content for a multi-page website.
